6/17/89

Dear Bill,

Thanks for the interesting sketches. Good question of Hillerman about the reporter getting involved in what he looks into. I've seen so much of it! And with the people who figure in it.

But don't take time for more xeroxing because I'm so far behind in what I have to do I've less time for reading and more of it waiting for me.

Especially during the Orioles season.

OK about the hospital sketch. I had a frame that was a bit larger for it but to keep it from getting more dust on it put it there. When Lil has the time for the copying we'll remove it and make several exposures for you.

I knew about the Washington Tribune and may have had a few clippings sent to me but I did not get it.

I'll be returning Cloak and Gown without reading it because of what I told you and what I have waiting. Thanks

I hope the new medicine works as you hope!

Best to you both,

Harold
